

## Our coffeehouse

We opened our doors on February 1, 2022, in South Carolina's oldest inland city of Camden. Since then, we've been proud to serve Kershaw County and visitors alike with our fresh roasted coffee, lattes, and other coffeehouse favorites, right in the heart of downtown Camden. American Patriot features the city of Camden on every bag we fill with our amazing coffee.

In our coffeehouse, we're proud to feature many products from local vendors, including local and house made pastries, and have forged relationships with all of our regulars who we consider our friends. American Patriot is a proud vendor in the Kershaw County Farmer's Market as well.

## Our roastery

American Patriot Coffee focuses on the moods, memories, and nostalgia we feel when we sample each and every blend we craft. That's echoed on our bags also. Many of our bags describe a piece of history that made our city and country what it's grown to be today. We donate a portion of our bag sales revenue to various charities, such as Wounded Warrior.

Our coffee is all ethically sourced around the globe from our friends at Balzac Brothers in beautiful, historic Charleston, South Carolina. We use strict quality control methods and cataloging systems when roasting, which guarantees consistently amazing coffee, each and every time.

In addition to being featured in shops all around South Carolina, our coffee is proudly served in several restaurants around our county. We'd love to serve it in yours as well!

Our operation is certified by the SC department of agriculture, DHEC, and we are in the process of becoming a certified SC product.

## What we offer

American Patriot sells 12 oz bags of coffee, either whole bean or pre-ground for any standard home or restaurant drip coffee maker. Our bags are heat sealed and are resealable. We also only roast what is ordered, so you're guaranteed to receive only the freshest of roasts.

Do you have a break room at your office, church, school, or place of business? Our five pound bags are a perfect addition to your break room, cafe, or restaurant. We can fill a five pound bag with any of our roasts either whole bean, or ground for any standard break room batch brewer.
